

The Roll-Out of the
“Proeftuin Schoolaanwezigheid”
(Experimental Garden for School Attendance)
in Region Twente

Marije Brouwer-Borghuis
&
Bas Hesselink

Regional Vision

Three key components

- Making use of the RtI/MD-MTSS framework
- Thinking in total school attendance
- Classifying school attendance problems by type and function

Our Journey Untill Now

Schoolyear 2019-2020

- Schooling secondary education
- Writing regional vision

Schoolyear 2020-2021

- First round of the Proeftuin SA for secondary education
- Schooling primary education (Present)
- Schooling youth health care practitioners and compulsory education officers (Present)

Schooljaar 2021-2022:

- First round of the Proeftuin SA for primary education
- Second round of the Proeftuin SA for secondary education

Working Method Proeftuin SA

- A School Attendance Team (SAT) on every participating school
- SAT meets weekly or biweekly. A new pyramid is made monthly
- Youth health care practitioner and compulsory education officer attend the monthly meetings
- SAT works at the roll out of the MD-MTSS model within the school

Offered Support

- Coaching
- Data analyst
- Workshops
- Consultation

Challenges

- Corona
- Data systems organized by authorized and unauthorized absenteeism
- Primary education registering half days in stead of clock hours
- Workload in education

Watch Out!

- Load the concept of school attendance well
- Yellow or red means: we worry about you, how can we help?

Windfalls

- Collaboration with dr. Patricia Graczyk
- Part of regional project
- Enthusiastic schools
- Eventually all data could be pulled out of the systems
- Data system that adapted their output
- NATIONAL MOVEMENT

National Waves

Continuing Our Journey

Schoolyear 2022-2023

- Schooling youth care, social work, probation officers, and other community partners
- Two rounds of the Proeftuin SA for both primary and secondary education
- First round of the Proeftuin SA for vocational education

School attendance
